

HONOLULU
February 16, 1931

THE HONOLULU REPUBLICAN.

VOLUME II, NO. 214

HONOLULU, H. T., SATURDAY, FEBRUARY 16, 1931

PRICE FIVE CENTS

TO PLACE A BAN ON INFECTIOUS DISEASES

Board of Health Will Prevent Repetition of Pratt Case.

ATTENTION OF LEGISLATURE CALLED

PIGGERIES IF DETRIMENTAL TO PUBLIC HEALTH MUST LO- CATE IN DESERTS.

Leper Settlement Now Assured of Plentiful Supply of Pot-Plumbing Inspector Reports—Permission Granted to Use Kakaako Ditch.

Persons suspected of having contagious or infectious diseases may be deported from entering the Territory of Hawaii, if a bill now in process of framing is passed at the coming session of the Legislature. The matter was incidentally introduced at the regular meeting of the Board of Health yesterday afternoon, when Attorney General Dole offered a draft of recommendations as coming from the Board and intended for the guidance of the legislature in formulating a bill. Should such a measure pass the Board felt confident that it would forever put a stop to the dumping here of such cases as the leper Pratt, who arrived in Honolulu some months ago and caused the health authorities much inconvenience and expense before he was compelled to return to the mainland.

Putting 'p the Bars.

It was the opinion of Mr. Dole that it was entirely out of the province of the Board to enact laws for restricting persons from entering the Territory, hence the legislature must be looked to for aid. The recent experience in the Pratt case has made it imperative that something be done. Upon motion of Mr. Lowrey, Messrs. Dole, Raymond and Cooper were appointed to draft a bill embodying the following recommendations offered by the Attorney General:

"The Board of Health, or any agent thereof duly authorized thereto, may detain and segregate any person coming into this Territory who is suspected of having a contagious or infectious disease endangering the public health, until a proper medical examination can be made under direction of the Board of Health; and, if it appears upon such examination that such person has a contagious and infectious disease endangering the public health and is not a resident of the Territory, the Board of Health shall order him to depart from the Territory as soon as the circumstances of the case and the facilities for doing so will admit, meanwhile detaining him in custody. If he refuses or neglects to obey said order, being able to obey the same and not being a resident of the Territory, he is guilty of a misdemeanor, punishable by imprisonment at hard labor not exceeding months, or by fine not exceeding hundred dollars. The Board of Health shall also have power to deport such person to the place from whence he came."

"If any person aids, abets, counsels or procures another, not a resident of this Territory, who is afflicted with a contagious or infectious disease endangering the public health, to come into this Territory, knowing or believing that such afflicted person is so afflicted, such person so aiding, abetting, counseling or procuring as aforesaid, is guilty of a misdemeanor, and shall be punished by imprisonment at hard labor not exceeding one year, or by fine not exceeding one thousand dollars."

"If any person having a contagious or infectious disease endangering the public health shall come into this Territory, not being a resident thereof, the captain or commanding officer of the vessel bringing such person to this Territory, if guilty of negligence in the premises (of which negligence the bringing of such person shall be prima facie evidence), shall be liable to the Territory for all expenses properly incurred by the Territory on account of the bringing of such person to the Territory; and the vessel in which such person comes and the owners thereof shall also be liable for said expenses; said liability of captain or commanding officer and liability of vessel and of owners being both joint and several."

Faithful Servants Resign.

A communication was received from L. A. Andrews in reference to the pending resignations of two nurses at the Hilo hospital. The scant salary paid was assigned as the cause of their leaving. Miss Andrews said to have acceptably filled the position of nurse and matron, with Miss Murphy as an assistant. The latter has been offered a more lucrative salary and in a separate communication states that she will be obliged to leave unless a more substantial compensation is forthcoming. Both attendants are very much liked by patients and physicians, and are considered careful and economical in their management of the hospital affairs. Upon motion of Mr. Smith the matter was referred to a committee for investigation, consisting of Drs. Emerson, Pratt and Raymond.

No Piggeries Need Apply.

Piggeries as a source of water contamination was exhaustively handled at the meeting. Lorrin Andrews appeared for E. Henriques who applied for permission to establish a stockade for the propagation of hogs on his premises four miles out Nuanuan Valley. Mr. Henriques made a former attempt to secure the coveted permit. The Board refused to comply with the

request on the ground that the maintenance of such a place would prove detrimental to the public health, inasmuch as there was a running stream within a few feet of the premises which is used by a number of residents in that section.

The eloquence of Mr. Andrews, backed by the confident assurance of his client, could not shake the determination of a majority of the Board, notwithstanding the claim that there was not a house within a thousand feet of the proposed piggery. President Raymond and Dr. Cooper took the stand that refusal of the permit might be considered as working a hardship upon a resident, consequently were in favor of granting the permit.

Miscellaneous.

Permission was granted persons residing along the Kakaako drainage ditch to use that famous aqueduct for carrying off the waste water of their respective premises.

Attorney General Dole submitted a report on the amendments of the food and drug regulations, in which a few minor changes were suggested.

The semi-monthly report of Plumbing Inspector Keen showed the number of plans filed, 41; permits issued, 41; inspections made, 133, and final certificates issued, 43.

In an extract from a letter from Superintendent Reynolds regarding the supply of pot, the statement was made that the secretary had called for tenders for taro during the remainder of the year.

FUNERAL ON SUNDAY.

Captain Bergstrom to Be Interred with Military and Masonic Honors.

As the family of the late Olaf Bergstrom is expected to return from Hamakua in the steamer Keauhou not later than Sunday morning, it has been decided to hold the funeral at 3 o'clock Sunday afternoon from the Masonic Temple, Knights of Pythias and the National Guard of Hawaii will participate.

Captain Bergstrom, the title having been earned in the Hawaiian militia, was a native of Sweden and 41 years of age. He left the United States naval service to make a home in Honolulu. Previously he had served in the Chilean navy, being in a fight with the Peruvian fleet. Part of his estate consists of a valuable homestead at Kalihi.

BEARDSLEE-TAYLOR.

Married at Home of Bridegroom in Kinau Street.

F. W. Beardslee and Miss Mary Louise Taylor were married at 8:15 p. m. yesterday evening. The Rev. W. M. Kincaid officiated, the ceremony being at the home of the bridegroom in Kinau street. Mr. and Mrs. Beardslee are content to spend their honeymoon at home. The bride comes of a prominent family in San Francisco. The groom has been a resident of Honolulu for a year or two past, in business as a member of the firm of Beardslee & Page, architects and contractors.

NEWS OF THE TOWN.

The grand jury yesterday afternoon visited the Insane Asylum and the Reform School.

There was a lively movement in Waiwala stock yesterday, an aggregate of 115 shares changing hands at \$123.

J. M. Camara has started in the coal and wood business with his office in Magoon's new building at Beretania and Emma streets.

The Biting habeas corpus case before Judge Estee was continued until Monday, owing to the illness of Mr. Davis, attorney for petitioner.

The drill shed will be turned over to the committee on decoration today. Contractor Paty has completed his work in erection of booths and stands, in which the various dignitaries of the Mardi Gras will be stationed.

Chas. H. Bollina, manager of the Club Stables Co., is in the queen's hospital receiving treatment for injury received from the kick of a horse a few days ago. The blow took him just under the kneecap, causing him much suffering.

The Hawaiian Electric Co.'s new office building has a picturesque facade on King street. It is of the most fanciful, brickwork seen here. There are different series of windows, arched, rectangular and semi-circular, also a grandly arched doorway.

The Scottish football enthusiasts of the city have received a challenge from the employees of T. H. Davies & Co. for a match game in the near future on either the Punahou or Makiki grounds. Much interest has been manifested in the contest.

Mrs. Frear will lead the Tennyson lecture class at the Y. M. C. A. this morning in a detailed study of "Lancelot and Elaine," "Guinevere" and "The Holy Grail." The class meets at 10:45 and any women intending to join are requested to enter as soon as possible.

"A silly thing—someone wants a job," is the comment one of the oldest residents, and most prominent too, made on being told, in answer to an inquiry, that the big ditch being excavated in Fort street was for a storm water sewer. "It will not carry off a heavy torrent, and anyway the water does no harm," was a further comment.

The Independents are said to be committed to the passage of a bill to do away with saloons and all manner of public drinking places for intoxicants. Dispensaries are to be substituted, where liquor may be bought only to carry away, and all the profits devoted to public uses. Even the dispensaries, however, are to be established only in districts where the people, women as well as men, have by ballot voted to have them.

NEW INDICTMENTS ARE PRESENTED

Two Defendants Are Al- lowed to Reserve Their Pleas.

ALL OTHERS PLEAD NOT GUILTY

MARY A. COFFIELD FIGHTS HER CASE AGAINST GOVERN- MENT.

Several Probate Matters Dispatched— Her Majesty Liliuokalani and John H. Wilson Enjoined From Taking Sand Off the Beach.

Defendants to new indictments by the grand jury appeared before Judge Humphreys yesterday.

Okakichi pleaded not guilty to assault on Ho Kim, and Mr. Brooks guaranteed bail for him at \$250.

Kamehameha pleaded not guilty to the larceny of \$1.50 from a Chinaman. W. J. Robinson was assigned as his counsel.

Naihe pleaded not guilty to the larceny of \$24.50 from Ah Lee. Mr. Bigelow was assigned to defend him.

Snead, a soldier, pleaded not guilty to larceny second degree.

Kanoho, charged with larceny second degree in breaking sake aboard a schooner, refused to confirm an offer to plead guilty made on his behalf by Wade Warren Thayer, his attorney, and his plea was entered as not guilty. Later a motion was filed by his attorney that he be granted a separate trial. Nahnulihili having been coupled with him for the same offense.

E. S. Gill, charged with assault with a deadly weapon, was on motion of his attorney, F. W. Hankey, allowed to reserve his plea until Tuesday. Bail was fixed at \$500 and J. A. Magoon went surety on the bond.

Solomon Kauili was permitted to reserve his plea to a charge of larceny. W. J. Robinson being assigned for the defense.

Matters at Chambers.

The accounts of H. E. McIntyre and Jane S. Walker, executors of the estate of the late J. S. Walker, were approved and they discharged.

Simultaneously almost with her identification from shore came word that the Maui was ashore. She took bottom out by the Channel buoy. Probably it was on a shoal made by the storm, but at all events the steamer was deeply laden. She oacked propeller for all the engine was worth and in twenty minutes slid off and was soon moored in Wilder's dock. No damage was done to the Maui, so Captain Clarke, the wharf superintendent of the company, believes.

When a Republican reporter went aboard, Captain Sack and officers were having supper in the cabin. The captain kindly gave a report of the voyage.

The Maui has been absent from Honolulu three weeks. She left Hilo on Wednesday evening and experienced strong winds mostly from the south. The cargo is a heavy one of 13,500 bags of sugar. The steamer called at Maialaea Bay and Kanaakakal and brought the following passengers:

F. M. Swamy, Mr. Morse, W. H. Cornwell, C. B. Reynolds, superintendent of the Molokai settlement, and Captain Johnson, also two native women and four children.

Maui Intelligence.

Theo. Richards, who returned from Maui the other day, says the storm caused a suspension of traffic on the Kahului Railway and broke communication with Paia. Public schools at Kahului and Wailuku were suspended for a week. Mr. Richards praises the benevolent work done without ostentation by Senator H. P. Baldwin on the island. It is effected under cover of the Maui Aid Society, with Miss Annie J. Malou as agent visiting all parts of the island on horseback. Mr. Richards will return to Maui next week in pursuance of his religious work under the auspices of the Hawaiian Board of Missions.

School Visitation.

Independent members of both branches of the Legislature visited several of the principal schools of the capital yesterday. They were carried in three wagnettes and accompanied by Superintendent Atkinson, Inspector Gibson and Miss Rose Davidson, district school agent. The visitors were delighted at seeing many Hawaiians studying for the teaching profession in the Normal school.

The Speedy Motor Cycle.

Manager Whitman of the Tribune bicycle agency has recently made several trial trips on the new motor cycle and pronounces the vehicle a success as far as speed and utility are concerned. A spin yesterday evening through the business streets demonstrated that fast time could be made. A minimum amount of noise is made in operating the machine.

Silas P. Perry to Speak.

Rev. Silas P. Perry will deliver a brief address before the young men Sunday afternoon at the auditorium of the Young Men's Christian Association. A special song service will be a feature of the meeting.

in the street and, as a Nuanuan street car passed by, a Japanese, either through ignorance or recklessness, drove across the street in front of the tram, and in such a way as to be unseen by the boy. When the wagon struck him, he fell backward toward the sidewalk, unconscious.

The injury, so far as can be ascertained, is a cranial one. The base of the skull shows signs of contusion. The name and number of the heedless driver is not known.

Mr. Austin is a stranger in Honolulu, having come here two weeks ago with his family from Seattle.

REVENUE OFFICE CHANGES.

Collector Roy H. Chamberlain Selects His Staff of Assistants.

When the Internal Revenue office opened yesterday morning it was under the direct supervision of the new collector, Roy H. Chamberlain. The retiring incumbent, W. F. C. Hasson, who has acted in the capacity as collector for the past six months, will resume his former employment as consulting engineer.

Mr. Chamberlain has appointed the following as deputies: Harry D. Couzens, chief deputy; Philip R. Whelan, deputy and cashier; Walter F. Drake, division deputy; Albert M. Webster, deputy and assessor; Charles Chong, deputy and messenger. The Chinese registration force remains the same.

Another False Alarm.

About 11 o'clock last night the telephone bells and the electric company's whistle signalled the appearance of Diamond Head of the Doric from San Francisco. On a renewal of importunities from the Republican to the port authorities at midnight, for leave to brave the perils of the offing for some fragments of intelligence from the outside world, the intimation came over the wires that it was not the Doric. "Only an island steamer."

STEAMER MAUI TOUCHES BOTTOM

IT HAPPENS ON HER ARRIVAL FROM HILO AT MID- NIGHT.

She Works Herself Off In Twenty Minutes—Heavy Cargo and Pas- sengers From the Other Is- lands.

It was the Wilder's steamer Maui from Hilo that was mistaken for the steamship Doric last night. The little freighter added a sensation to the still hours all her own.

Simultaneously almost with her identification from shore came word that the Maui was ashore. She took bottom out by the Channel buoy. Probably it was on a shoal made by the storm, but at all events the steamer was deeply laden. She oacked propeller for all the engine was worth and in twenty minutes slid off and was soon moored in Wilder's dock. No damage was done to the Maui, so Captain Clarke, the wharf superintendent of the company, believes.

When a Republican reporter went aboard, Captain Sack and officers were having supper in the cabin. The captain kindly gave a report of the voyage.

The Maui has been absent from Honolulu three weeks. She left Hilo on Wednesday evening and experienced strong winds mostly from the south. The cargo is a heavy one of 13,500 bags of sugar. The steamer called at Maialaea Bay and Kanaakakal and brought the following passengers:

F. M. Swamy, Mr. Morse, W. H. Cornwell, C. B. Reynolds, superintendent of the Molokai settlement, and Captain Johnson, also two native women and four children.

Rev. Silas P. Perry will deliver a brief address before the young men Sunday afternoon at the auditorium of the Young Men's Christian Association. A special song service will be a feature of the meeting.

PREPARATIONS ARE NEARLY COMPLETED

For the Reception of Prince Carnival and Suite.

TRANSFORMING THE DRILL-SHED

INDICATIONS POINT TO A VERY SUCCESSFUL MARDI GRAS BALL.

There Will Be No Free List—Even the Ladies Who Have Worked Hard For the Affair Will Have To Pay the Regular Price.

Amid the bustle and confusion of preparing the great hall of the Drill Shed for the Mardi Gras ball, the final meeting of the efficient committee which has brought the plan of aiding the Honolulu Eye and Ear Infirmary so close to a successful consummation, was held and the last touches were put on the little details which are necessary to insure a perfect success in an undertaking of this character. There were about twenty of the ladies present and as the meeting progressed A. G. Hawes and Tarn McGrew came in and listened while the members of the committee went over the work before them.

The ladies expressed themselves as being delighted with the appearance of the official souvenir of the ball which had just been finished by the Robert Grieve Publishing Company. The souvenir is a very neat bit of work and consists of twenty-four pages of printed matter bound in Bristol board, with red silk fastenings. On the first page of the cover there is a cut representing a creole masque in black and yellow. The descriptive work concerning the objects of the entertainment was carefully prepared and tells of the work which has already been accomplished by the infirmity, its trials and the difficulties which, it is to be hoped, will be overcome by the financial results of the ball. A full list of the ladies who have undertaken to make the dance an artistic as well as a financial success is also printed.

A general list of instructions to the dancers follows and then a series of notes and small talk is set out. The souvenir close with an acknowledgment to Captain Berger for the arrangement of a really fine musical program. The changes in the Drill Shed are being made with as much speed as possible and the interior of the hall-like structure is beginning to assume the appearance of a dance-hall. The row of private boxes along the north side of the hall is about completed and the stand for the musicians has been commenced.

All was confusion and piles of lumber littered the floor in all parts of the hall. The sound of the busy hammer and saw made so much noise that it was with difficulty that the ladies could make themselves heard above the din. But they persevered and when an adjournment was taken there was little remaining to be done between the present and the time of the ball. All that now stands between the committee and success is the disposition of the people of this city toward the infirmity to be placed on a firm financial basis and so the ladies are quite jubilant over the outlook.

The tickets are not being sold as fast as the committee would desire but it is confidently expected that the bulk of the pasteboards will be disposed of within the next twenty-four hours. Absolutely no free tickets will be distributed and each of the persons to whom tickets have been given for sale has agreed to make a strict accounting for the tickets or to be charged with \$2.50 for each one of them. Admission cards may be procured from any of the following persons:

Wall, Nichols Co., Benson, Smith & Co., Hobron Drug Store, Hollister's, Bergstrom's, Thrum's, Hawaiian News Co., Brasch & Co., Nolte's, Lycurgus Restaurant, Hawaiian Hotel, Hawaiian Annex, Walkiki Inn, Charles Desky, Esq., Miss Killeen, Doctor Clarke's, Mr. A. Jones, Mr. F. Peachy, Mrs. E. D. Tenney, Mrs. Mary Gunn, Mrs. E. Freeth, Mrs. H. A. Isenberg, Mrs. Tom May, Mrs. G. Wilder, Miss Maggie Walker, Mrs. H. Cooper, Mrs. W. C. Wilder, Mrs. Annis M. Turner, Mrs. S. M. Damon, Mrs. Mary Widdifield, Mrs. M. E. Estee, Mrs. Harold Mott-Smith, Mrs. Mannie Phillips, Mrs. Walter Hoffmann, Mrs. H. Wichman, Mrs. J. M. Dowsett, Mrs. James G. Spencer, Mrs. M. M. Scott, Mrs. J. T. McDonald, Mrs. Reis, Miss Anna Paris, Miss Bacon, Mrs. Slaker, Mrs. James Campbell, Mrs. F. M. Hatch, Mrs. Pond, Mrs. S. M. Parker, Mrs. E. W. Jordan, Mrs. J. S. Walker, Mrs. A. M. Brown, Miss J. Kaufman, Mrs. F. M. Swamy, Miss Bacon, Mrs. J. K. Brown, Miss Jones, Mrs. T. Rain Walker, Mrs. Wm. F. Allen, Mrs. M. L. Walker, Mrs. A. Atkinson.

Money received in payment for tickets should be turned over to S. Edward Damon at Bishop & Co.'s bank or to Mrs. A. G. Hawes, Jr.

The Curability of Inebriety.

T. D. Crothers believes that when inebriety shall be more generally studied and treated as a disease by the profession, a degree of curability will be obtained far beyond any present expectation. The continued of

occasional excessive use of spirits to intoxication is not the disease, but is a symptom of some central irritation and exhaustion; also of poisoning and starvation. Many of these cases are self-limited, and follow a certain course, dying away after a time. The subsidence of the drink symptom by the removal of the exciting causes and building up the system to greater vigor and health is the only rational treatment.—St. Louis Medical Review.

CAPTAIN PAUL SMITH.

Likely to Have Warm Work Soon in Philippines.

Tidings of Captain Paul Smith, who graduated from command of a company in the Hawaiian National Guard to the United States Army serving in the Philippines, have been received through Sergeant Benjamin. The latter is being invalided home in the Indiana. He belonged to Captain Smith's command, Co. F, 40th Infantry, U. S. Volunteers, which, when he left the troubled new possessions, was at Cagayan, Island of Mindanao. Active operations against the Visayans were about beginning, so that Captain Smith was likely to have a chance to win "the bubble reputation at the cannon's mouth." It would not be the first time he had been in action, however, as reports of his valor on Luzon have formerly been published in the local papers.

NEWS FROM JAPAN.

Progress in Government Railways. Anti-Rat Campaign, Etc.

Remarkable progress is being made year after year in the transaction of business on the Government Railways. For instance, the receipts secured by the official lines for the delivery of goods in December only during the past four years have shown that 190,000 yen were obtained in 1897, 290,000 yen in 1898, 400,000 yen in 1899, and 442,000 yen in 1900. It is said that the above mentioned receipts in 1900 should have been certainly swollen to something like over 800,000 yen altogether, had the working capacity been up to the mark.

During the previous week, 486 rats are said to have been captured in Kanagawa prefecture. The total number of the animals captured since last year in that prefecture has reached 10,089 altogether.

The naval authorities are said to be thinking of organizing another torpedo corps which they propose to station at Moji. It may be added that the proposed Maizuru naval station in the sea of Japan will be opened about June.

It appears that the pest in Osaka and Wakayama has been stamped out; at least during the cold season. Since the outbreak of the mauling in Kobe on the 2nd of November, 1899, the total number of cases and deaths reported up to the present has reached 223 altogether, of which 157 occurred in Osaka, 26 in Hyogo, 29 in Shizuoka, 17 in Wakayama and one each in Hiroshima, Fukuoka and Nagasaki prefectures.

The Yokohama City Authorities ceased purchasing rats on the 25th in consequence of the disappearance of the pest cases in Osaka and neighborhood.

WILL CARRY OIL TO JAPAN.

Big Square-Rigger, Capacity 1,500,000, to Make Philadelphia Her Port.

PHILADELPHIA, Feb. 2.—One of the finest sailing ships in the world is soon to visit Philadelphia. She is named the Acme, and will be launched from the yard of her builders, Arthur Sewall & Co., of Bath, Me., in a few weeks. The ship will carry 1,500,000 gallons of petroleum. After receiving her cargo at the Point Breeze pier the Acme will sail with it to Japan, via the Cape of Good Hope.

The Acme owes her origin to the Standard Oil Company. The heads of the concern have decided that the day of the sailing ship is not over, and that oil can be carried to the far East under canvas cheaper than by steam.

Old tars at this port are enthusiastic over the revival of the square rigger, a type now fast disappearing from the seas, and many of them are making efforts to secure a berth on this splendid craft.

The Acme measures 332 feet long, 43 feet beam and 25 feet deep. Her gross tonnage is 3206 and net tonnage 3000. She will carry a complement of 35 men. The masts are of steel and 135 feet long, and the bowsprit is 65 feet long. In building the ship 325,000 rivets and 2000 tons of steel were used.

Tolman's Little Time.

Tolman's Little Time will be given at the Orpheum tonight by the Honolulu Dramatic Club. The seat-sale will be transferred to the box office at the Orpheum early this morning. The piece was so successful last Saturday that a good-sized crowd is sure to turn out. The play is elaborately staged and well-planned, and presents a most enjoyable evening's entertainment.

Public Concert.

On this Saturday afternoon at 4:30 the Government band will play the following program at Emma Square: March—"The Ameer".....Herbert Overture—"The Armorer".....Florey Gavotte—"The Arena".....Florey Reminiscences of Donizetti.....Godfrey Waltz—"The Violet".....Walldouff Galop—"The Hermit Bell".....Maillard "The Star Spangled Banner."

Late reports note a growing strength in the German navy.

The deadlock still continues in Nebraska legislature.

PATRIOTISM IN THE AMERICAN SCHOOLS

Mothers and Teachers Consider the Subject.

DR. W. M. KINCAID AT HIS BEST

HE ADDRESSED THE LADIES WITH IMPASSIONED FERVOR AND ELOQUENCE.

Session of the Club Closed With a Pot-Pourri of National Anthems —Japanese Chorus Sang the Na- tional Hymn of Nippon.

The Mothers and Teachers' Club of this city held a meeting yesterday afternoon at the Punahou Preparatory School and listened to an eloquent address on the subject of "Patriotism," by the Rev. W. M. Kincaid and to the rendition of several of the patriotic hymns of the various nations of the earth by different ladies.

The school-room was crowded when the opening of the exercises was announced and Dr. Kincaid was summoned to make his speech. His first remarks were in definition of the term "patriotism." He said that the meaning of the word was in many respects synonymous with liberty and spoke of the importance of fostering in the minds of the youth of the country, a proper understanding of the real significance of liberty. He referred to the species of liberty enjoyed under the aegis of the former examples of the republican form of government and explained that it was not by any means similar to that which we enjoy.

He traced the mission of the Jews, Romans, Greeks and other non-despotic governments and said:

"The Romans had a mission, it was to show the world the power of conquest and the result of worldly force in dealing with the problems of controlling the actions of mankind. The characteristics of the Roman people were of a kind that may be best described in telling of the strength and hardness of solid iron. This people was strong and the stability of its government rested upon the iron-like quality of the citizenship, but it fell, because the people of Rome did not accord a full measure of liberty to all the subjects of the great government."

"The treatment of the so-called barbarians by the people of the latter-day Rome, was in a measure the reason for the ultimate fall of the government."

"Greece idealized Art, but the citizenship of the land was not a free gift and the power of the government fell and crumbled when the test of its strength by prosperity and internal luxury and corruption was placed upon it."

"The great battle of Marathon was fought and won by slaves and restriction on human liberty under the sway of Rome may be illustrated by the message of Pompey to the anxious 'Senatus Populorum Romanorum' from the field where he had crushed the last vestige of life from the cohorts of Spartacus."

"I have met the vile slaves and have reduced them to the nothingness from which they originally came," was his message.

"Rome fell, Greece fell, and freedom from the precincts of the learning of the ancient world, fled to the shores of our broad land and here raised up a government which took Liberty for its motto and, under the guidance of God, this land has increased in strength and power until today it stands foremost among the nations of the earth."

"We are free today, because the liberty of the land is made possible by the understanding of the people. We are free, because we are men. The lessons to be drawn from the histories of fallen nations should be taught to the young of our own land and the great destiny of our own land should be impressed upon their young minds, after the true principles of human liberty have been implanted in that receptive soil."

When Dr. Kincaid had finished, a beautiful ceremony was performed. The chairman announced that Star Spangled Banner would be sung by Mrs. Annis M. Turner. The soul-stirring melody of Key's hymn was sung in fine style and was well received.

The American hymn was followed by the singing of "Wacht Am Rhein" and "Marseilles" by Mrs. C. B. Cooper. Mrs. Cooper sang the battle-songs of the great European nations in the respective languages of those countries. Then a chorus of six Japanese school-masters gave the national anthem of Japan and a quartette of boys from the Kamehameha school rendered the Hawaiian hymn.

<
